

Nitin Patyal

Software Engineer | Full Stack Developer | AI Engineer

Himachal Pradesh, India | +91-7876030089 | patyalnitin868@gmail.com

LinkedIn | GitHub | Portfolio

Professional Summary

Full Stack Developer with hands-on experience building and deploying AI-powered applications using React.js, TypeScript, Python, FastAPI, ASP.NET Core, Flask, PostgreSQL, SQL Server, and MongoDB. Experienced in REST API development, JWT authentication, AI/LLM integration, semantic code retrieval, cybersecurity analysis, and cloud deployment.

Technical Skills

Programming: Python, C#, C++, C, JavaScript, TypeScript, SQL

Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: FastAPI, ASP.NET Core, Flask, Entity Framework Core, REST APIs, JWT, RBAC

AI/ML: LLMs, Ollama, Sentence Transformers, FAISS, Scikit-learn, Tree-sitter

Databases: PostgreSQL, SQL Server, MongoDB, MySQL

Tools & Cloud: Git, GitHub, Docker, Netlify, Render, Vercel, VS Code

Core Concepts: OOP, DBMS, Operating Systems, SDLC, Data Structures

Projects

CodeMind AI – AI-Powered Code Intelligence Platform

GitHub Live Demo

React.js, TypeScript, FastAPI, Python, Ollama, FAISS, Tree-sitter

- Built and deployed an AI-powered platform for GitHub repository analysis covering code structure, dependencies, duplicate code, code quality, security findings, and architecture.
- Integrated LLM-powered code explanation, security remediation, test generation, documentation generation, architecture analysis, and conversational codebase querying.
- Implemented semantic code retrieval using Sentence Transformers and FAISS, with Tree-sitter and GitPython for source-code analysis.
- Deployed React frontend on Netlify and FastAPI backend on Render with Ollama Cloud for AI inference.

CyberShield – Smart Web Security & Vulnerability Scanner

GitHub Live Demo

React.js, TypeScript, ASP.NET Core, PostgreSQL, Entity Framework Core

- Built a cloud-based cybersecurity platform for SSL/TLS analysis, HTTP security header inspection, HTTPS validation, and security posture assessment.
- Implemented JWT authentication, role-based access control, REST APIs, and PostgreSQL database integration.
- Deployed frontend on Vercel and backend on Render.

ArogyaAI – AI-Powered Healthcare Platform

GitHub Live Demo

React.js, Flask, MongoDB Atlas, Scikit-learn, JWT

- Developed an AI-powered healthcare platform for machine learning based disease prediction.
- Implemented JWT authentication, OCR prescription scanning, appointment booking, health monitoring, and PDF report generation.
- Built Flask REST APIs with MongoDB Atlas for cloud-based application data management.

Education

Bachelor of Technology (B.Tech) – Computer Science Engineering

2022 – 2026

Himachal Pradesh Technical University, Hamirpur

Certifications

- Programming Using Java – Infosys Springboard, 2026
- Ethical Hacking – Cisco Networking Academy, 2024
- Ethical Hacking – Internshala, 2024
- Data Analytics with Tableau – Jobaaj Learning, 2023

Achievements

- Developed and deployed CodeMind AI, an AI-powered code intelligence platform combining repository analysis, semantic retrieval, cybersecurity analysis, and LLM-powered developer tools.
- Built and deployed multiple full-stack applications using React.js, FastAPI, ASP.NET Core, Flask, PostgreSQL, SQL Server, and MongoDB.
